Master Sovereign's Order Not Heeded.

TRAFFIC RESUMED.

Are Beginning to Tell What They Are Going to Do in the Courts—They Want Pullman and Others Indicted.

...July 11.—The most important development in the labor situation during the past twenty-four hours is the announcement to-night from the headquarters of the American Railway Union that a determined effort will be made to invoke the Federal laws against the members of the General Managers' association, and that, with this object in view, a conference will be held to-morrow with W. The Blockade Broken.

... stock yards the blockade was effectually broken. Business was resumed ... and all was hustle and bustle ... of pens and along the railroad tracks. The first incoming cattle ... two weeks steamed into the yards ... and by 4 o'clock 60 cars of ... were brought in by the Burlington and Quincy, 40 by the Northwestern ... by the Santa Fe. The military ... guard at every important point ... was no need of its services. For the 24 hours ending this evening not a single fire or police alarm was turned in from the district, and Police Captain O'Neil, who is in command of the district, officially reports that police are in full command of the situation, and that there appears to be no further use for the troops. At the same time any attempt to withdraw the latter will be met by the general opposition of the packers and other business interests, and even if present conditions should continue for several days to come it will be regarded as necessary to hold the military in reserve.

Sovereign's Order Disregarded.

The anticipated tie-up of business as a result of the sympathetic strike order issued by the representatives of the allied trades, and the appeal to the Knights of Labor of Mr. Sovereign, did not materialize to any visible extent. The most radical reports keep the total that has so far responded within 15,000, while conservative estimates do not go much behind that number. It is claimed, however, that many of the unions are so situated that they cannot shut down at a day or an hour's notice and that the full effects of the tie-up will not be apparent before the end of the week. Considerable discouragement was expressed over the reports from other large cities that Mr. Sovereign's appeal had met with but a limited response, and fears were expressed that this might induce President Gompers and the executive officers of the American Federation of Labor, who assemble here to-morrow, to take a more conservative course than has been expected at their hands.

More Indictments

When the Federal grand jury adjourned this evening after two sessions occupying in the aggregate about six hours, District Attorney Milchrist was handed 15 indictments that represented the work of the afternoon session. Judge Grosscup, however, had left court for the day and the indictments cannot, therefore, be formally returned until to-morrow. The names of the defendants were not made public, but it is stated that no prominent labor leaders were involved, but that the true bills affected the men arrested at Blue Island and at points on the Panhandle, Lake Shore and Rock Island tracks who participated in the disorders of last week. Some 27 men concerned in the burning of cars and stoning of the trains in the earlier part of the trouble were brought in by deputy marshals and escorts of military during the day, but most of the number were released on small bail. United States Marshal Arnold to-day reduced his forces by 300 men. These were withdrawn from outlying points where no further necessity exists for their service.

An Armed Truce.

The situation to-night is that of an armed truce. The railroad men are watching every move of their adversaries and say that they are satisfied with the situation and that their policy is absolutely "No surrender." The union officers and directors also profess to be equally satisfied and adopt the same motto.

Each side is waiting for the other one's move, while the public also is waiting and wondering how long this condition of affairs can possibly continue. Meanwhile, with a sufficient force of military to command the situation, immunity from serious riot or disorder may be regarded as literally assured.

ARBITRATION REFUSED.

The Pullman Company Still Insists There is No Ground for It.

Chicago, July 11.—The Pullman company has rejected the kindly overtures of the mayors of 50 of the leading cities of the country and still refuses to arbitrate. At 4 o'clock this afternoon Mayor Hazen S. Pingree of Detroit, accompanied by Mayor John P. Hopkins of Chicago and Erskine M. Phelps of the extensive boot and shoe firm of Phelps, Dodge & Palmer, of this city, called at the Pullman building. Mayor Pingree carried with him telegrams from 50 mayors calling upon the Pullman Palace Car company in the name of peace and good citizenship to submit its differences with its employes to arbitration and at once end the disastrous strike. There were present at the conference on behalf of the Pullman company, Vice-President Wickes, Chief Counsel John S. Runnells and General Manager Brown. Mayor Pingree presented the telegrams he had received from all parts of the country and in a manner most earnest urged that the Pullman company accede to the expressed wish of the people and at once submit all matters in question between itself and its employees to arbitration. He pointed out the disastrous conditions which had already resulted from the strike and the results which seemed inevitable unless it was settled.

The officials of the company, on the other hand, denied responsibility and repeated their oft reiterated statement that there was nothing to arbitrate. They declared that the works had for a long time previously to the strike been run at a loss, and if they were again put into operation it could only be at a still further loss. They declared in conclusion, "that the question at issue, which was simply that of re opening the works and carrying on the business at a ruinous loss, was not a proper subject for arbitration."

The conference ended with that emphatic decision of the officers of the company and the party of peacemakers withdrew.

"I believed there were good grounds for arbitration before I sent out my telegrams of inquiry to the mayors," said Mr. Pingree, "and I have seen no reason to change my mind in that matter in all that has been said to-day. I am myself a manufacturer and employ 700 hands. I have had differences with my men, but we have always been able to adjust them; and I still believe this whole matter might be settled, were the proper spirit manifested."

Mayor Hopkins was completely discouraged, though he had not expected the result would be different. "The matter stands just where it did before—the Pullman company will not arbitrate," he said. "There is nothing more to be said concerning this conference and there is nothing to be looked for in this direction from the Pullman company."

The Backbone Broken.

Ft. Wayne, Ind., July 11.—Virtually the backbone of the strike in Ft. Wayne is broken. All the Nickel Plate men are returning to work. The Pennsylvania engineers and firemen are on duty, and the trainmen fell into line to-night. The north and south roads are running as usual except that fewer freights are being moved. With the exception of the Wabash road the prospect of a general resumption of all railroad business in Ft. Wayne to-morrow is very favorable.

The master workman of the Ft. Wayne branch of the K. of L. to-day received Sovereign's general order to go out on a strike. Action will be taken on the order at a regular meeting to-morrow night.

The U. P. Strike Breaking.

Rawlins, Wyo., July 11.—The Union Pacific strike is breaking all along the line. Fifty men reported for work at the shops this morning.

At Green River 80 men asked to be reinstated. The Rawlins city marshal attempted to arrest the roundhouse foreman last night and a crowd of friends attempted to interfere. The troops charged and drove them from the railroad property.

Attempted Train Wrecking

Terre Haute, Ind., July 11.—An attempt was made to wreck the Chicago and Nashville express in the Evansville and Terre Haute yards early this morning. During the night a switch was spiked and when the passenger train ran on to it the tender and baggage car were derailed, the engine passing over. A gang of young hoodlums stoned a gang of men at work in the Chicago and Eastern Illinois coal yards this morning. Two men were struck but not seriously injured. The police dispersed the crowd. The Evansville and Terre Haute, Chicago and Eastern Illinois and Big Four are bringing in new men to take the places of strikers and will attempt to resume operations in a day or two.

A Rioter Sentenced.

Denver, July 11.—C. J. Bush, a Santa Fe striker, arrested at La Junta for contempt of court, was sentenced for 40 days in jail by Judge Hallett to-day. Bush cut several brake hose.

The Rio Grande road got its first train into Trinidad to-day since the strike commenced.

The Postal Telegraph manager at Trinidad has been ordered to appear here with dispatches passed between A. R. U. officials. His company has instructed him to refuse.

Rioters Arrested

Chicago, July 11.—M. E. Hurley, who is said to have been one of the leaders in all the rioting which has been done at Blue Island since the strike began, was arrested to-day and held by Commissioner Hoyne to the Federal grand jury under $3,000 bail, which he furnished. Hurley was a Rock Island switchman and for a week his arrest has been desired by the railroad company and the marshal, but he succeeded in eluding the deputies. Jas. Heron and Michael Hughes were arrested to-day, charged with interfering with Rock Island trains at Fifty-first street. Their bail was fixed at $3,000 and their hearing set for July 20.

President Cleveland Endorsed.

Chicago, July 11.—The following resolutions were adopted by a special meeting of the directors of the Board of Trade:

Resolved, By the board of directors of the Board of Trade of the City of Chicago, in special session assembled, that the dignified and vigorous action of the Chief Executive of the United States in calling out the national forces for the suppression of insurrection, for the maintenance of law, and for the protection of interstate commerce and of the United States mail, deserves and hereby receives the unqualified admiration and approval of this board and inspires every loyal American with renewed confidence in the stability of our government.

HE CARRIED BOMBS.

A German Jew Who was Loaded for Business.

Indianapolis, July 11.—The police to-day found two dynamite bombs among the belongings of a Jew named Wolff Goldberg, who came here from Chicago several months ago and obtained employment among his own race as a baker. He went to work for Abraham Garber about four weeks ago but according to Garber he worked in the interest of a business rival by spoiling the batches of bread and ruining its sale. Garber therefore discharged him last Friday, but he refused to go and said he would blow up the shop and kill anyone that took his place. He returned for three successive days and abused Garber with epithets and threats. Seizing a long-bladed knife used by bakers he assaulted Garber but was kept from doing him much harm. Garber then determined to have him arrested, and after swearing out the warrant to-day he went into the room lately occupied by Goldberg and found the bombs bulging from the pockets of the trousers left behind. He says Goldberg talked constntly of anarchy and when Carnot was assassinated rejoiced. Goldberg talked constantly of anarchy and this evening and said that the bombs were only intended for blowing up stumps but could not explain why he had them.

New York Stock Market.

New York, July 11.—Money on call is easy at 1 per cent.; last loan at 1, and closing offered at 1. Prime mercantile paper 1-2@1 per cent.

A sharp drive was made on Chicago Gas at the opening of business to-day and the stock fell 3-4, to 72 1-8, the general list yielding 1-8 to 1-2 per cent. in sympathy. The decline was due to bear reports that the Chicago Knights of Labor would follow Grand Master Sovereign's suggestion and further complicate the labor situation at the West. When it was seen, however, that Sovereign's request was having but little influence, and that the ranks of the strikers received few accessions there was a decided change for the better. Conditions on the Pacific coast improved materially and it was also rumored that the Pullman employees would return to work without arbitration after all.

Again the government crop report had a good effect on the corn carrying roads and induced purchases of Rock Island and Chicago, Burlington and Quincy for both long and short accounts.

London exaggerated the importance of the proposed strike by the Knights of Labor and sold at the start, but when it was seen that but an insignificant proportion of the members of the order had responded to the call for a strike, the foreigners turned bullish. There was a good demand for the Grangers. The market closed strong and 1-4 per cent. higher on the day. Total sales were 138,001 shares.

The bond market opened weak, but closed higher. Sales were $767,000.

A FIENDISH DEED.

A Southern Pacific Train Purposely Wrecked.

IT WAS FILLED WITH TROOPS.

Feeling Against the Strikers is Very Bitter Because of the Outrage—A Loosened Rail Sent the Train Into the Mud.

Sacramento, July 11.—The Southern Pacific company broke the blockade at Sacramento to-day and the engine that hauled the first train lies on its back in a slough by the side of a broken bridge with three of the cars that made up the train. Beneath the wreck in the ooze and slime of the stagnant water lie the bodies of the engineer who held the throttle and three soldiers who were guarding him. The dead are: Engineer Samuel Clark, Private Byrne, Private Lubberden and Private Clark.

Three men were injured and one of them will almost surely die. This is Wesly Dugan, also a private in battery L of the Fifth artillery. He was on the tender of the engine and was thrown to the shore of the slough. One of his arms was torn from its socket and broken in three places and his jaw was broken. The wreck of the train was accomplished by means of a loosened rail. Fish plates were removed, spikes drawn and bolts taken out. The rail was left in place and there was nothing to show the engineer who was running his train slowly and cautiously, that there was anything wrong with the track ahead of him. When the wheels struck the loose rail it sent the ponderous engine on to the ties. The cars followed, and the whole forward end of the train plunged into the muddy water. The trestle is a complete wreck. The rails are bent like a shepherd's crook and the ties are ground to toothpicks. The locomotive turned a complete somersault.

The scene of the accident is a little over two miles from Sacramento. It was well selected for the disaster. The loosened rail was just at the end of the bridge, and the momentum of the heavy train could not have failed to hurl a great part of it into destruction.

The effect of the outrage has been to make the soldiers desperately bitter against the strikers; where they would have fired with reluctance they will now shoot with actual pleasure. Their feeling is shared by the militia and it is almost a certain thing that lives of other men will pay for those of the three soldiers. The soldiers have already captured two strikers who are suspected of knowing how that rail came to be misplaced. The cavalry brought the men in and they were under guard at the depot for some hours before they were turned over to the United States marshal.

President Cleveland's proclamation did not quite place Sacramento under martial law, so that the civil authorities will deal with these accused men. Otherwise the military court and firing squad at daybreak to-morrow would deal their fate out to them.

The catastrophe came entirely without warning. The soldiers had cleared the depot without trouble and except for ... between the militia and the strikers in the early morning, there was no sign of violence or opposition. The railroad people were already congratulating themselves on the successful breaking of the blockade when the awful news came. It was discredited at first, but presently a messenger arrived from the wreck with a note from the conductor telling of the horror.

A wrecking train with army surgeons on board was hurried to the scene, but there was little that they could do. They brought the wounded to a military hospital established in the waiting room of the depot and replaced the rough field bandages with more elaborate dressing. The dispatching of cavalry to the scene to find if possible the guilty parties followed, and in a very short time the soldiers were back with their prisoners.

The strikers deny responsibility for the disaster and their leaders have expressed horror at it and hope that it would be the last act of violence in the strike. They say that they cautioned their men not to oppose the law and forbade violence of every sort and say they have posted guards and taken many precautions to prevent such work by other people; but all this has not softened the temper of the soldiers. To-night they are raiding the various sections of the city in a hunt for strikers' arms. They have found many guns and other weapons and what is more of disappointment than anything else to them is that they have not been resisted. Whether the strikers will hold their temper under this treatment remains to be seen. It will be better for them and for the peace of California if they do; for the soldiers are worked up fiercely and only lack an excuse to carry out their orders with lead and steel.

CRIPPLE CREEK.

Latest News from El Paso's Great Gold Camp.

Special to The Gazette.

Cripple Creek, July 11.—The Sacramento company, operating on the Sacramento claim situated a little to the east and south of the Pike's Peak ground, have undoubtedly opened the extension of the famous Pike's Peak vein, barring the fact that no free gold is visible on the specimen shown. The ore looks fully as well as any taken from the Pike's Peak. The officers in charge are extremely reticent and refuse to disclose what it is worth.

William Mason and associates in the lease on the Mary Nevin have made a find which is said by competent judges to excel in richness anything found yet in the Cripple Creek district. It is not anything immense in size, in fact the ore streak is quite narrow, but from all appearances, will yield more gold to the pound of ore extracted than anything yet opened in the district, not excluding the famous rich streak in the Pike's Peak. This rich ore comes from a narrow cross vein said not to exceed five inches in width at its widest place but it is filled with nuggets and flakes of gold in pieces as large as your thumb nail which can be twisted about like tin-foil. The find has but recently been made and its extent is not known but if it holds out it will make the lessees immensely rich.

On the Lowell, a claim adjoining the Bobtail on Battle mountain, a most important find has recently been made, and 15 inches of quartz which closely resembles the best ore in the Portland has been exposed.

The lessees on the Galena of the Iron Mountain company's property have a car load of ore ready to ship and all sacked. A burro trail is being constructed to bring it down. The ore runs about $75. This is a new district entirely and the return of the shipment will be watched with great interest.

Mr. Stratton to-day put a force of men at work on the Independence. This is the first work done on the mine since the strike ended.

Miss Sophie McLain, a young lady about 17 years old and a resident of Arequa, was the unfortunate victim of an accident this afternoon which if it does not cost her her life will probably leave her badly disfigured. She and her young sister were riding in a cart on the grade between her home and Anaconda when the axle broke and precipitated them to the ground. At this the horse took fright and ran away. Miss Sophie's dress caught in the vehicle and she was dragged at a frightful speed for 200 yards. In addition to numerous bruises on the body she received a frightful gash over the right eye several inches in length. The full extent of the injury cannot at present be determined, but it is thought to be extremely dangerous.

Summer School.

Professor Lasker has arrived and is preparing some large wall charts for use in his course of lectures on the geology of the Cripple Creek region. This course will commence next Monday afternoon at 5 o'clock at the Mining Exchange. If this room is not large enough to accommodate the regular Summer School attendants and the members of the exchange and those interested especially in mining matters, the course will be repeated at the college for the benefit of the former.

Dr. Bessey's course in botany is proving so attractive that his room is crowded to overflowing at every lecture and he will probably have to move into larger quarters.

Mr. Read's art lectures are still drawing large numbers. He has several classes in various lines of drawing and charcoal work.

Following is the schedule for to-day:

8:30. Botany.
9:30. Botany—Laboratory.
Geology.
10:30. Philosophy.

Teachers' Institute.

At the Institute yesterday morning the address was given by State Superintendent Murray. This morning County Superintendent Finch will deliver an address upon the subject, "Wanted—A Boy." To-morrow Professor Palmer of the State University will address the teachers.

The attendance was greatly increased and several teachers put in an appearance who will enroll to-morrow. Thus far none have registered from Elbert county, nor has Superintendent Lindsley arrived. Superintendent Ball and five of his best teachers from Douglass county, are in attendance at every session.

Last evening Mrs. Elizabeth Lyle Saxton delivered her lecture for the benefit of the restoration fund of Grace Church at The Antlers Pavilion. She was greeted by a very nice audience. Those who purchased tickets and remained away missed a very interesting and instructive talk. Mrs. Saxton gave a review of the progress of women from the time when they were little more than ciphers in the affairs of the land to to-day. She has lived through this entire period and known most of those who have been active in the advancement. She is therefore very peculiarly fitted to talk on the subject and has gathered a great deal of information. Mrs. Saxton was the leader in the social purity movement, and she closed her lecture with a strong plea on that subject. During the evening, Mrs. Seldomridge sang a number very sweetly and Professor Pryor gave a piano solo.

The Gazette job office has just turned out a handsome book for Coroner Marlow. It is an official record for a coroner and is the first of the kind ever used in the State as far as can be learned. It is book of 250 pages and there is space for the record of each case, including a description of the person, date of death, cause of death, the jury's verdict, etc. There is also an index for ready reference. The book was prepared from copy furnished by Dr. Marlow, and the result of his long experience. The coroners of the various counties of the State will find it a great convenience to have a copy of the book.

Pike's Peak lodge, No. 38, will confer the initiatory degree upon a number of candidates this evening. The degree staff are all requested to be present. All visiting brothers are cordially welcome.

Mr. John E. Hopley, editor of The Journal at Bucyrus, O., vice president for Ohio of the Republican league clubs, and a prominent Keeley man, is in the city, and a guest of Major Insley.

SENATE AND HOUSE.

The Annual Appropriation Bills Passed Yesterday.

THE PRESIDENT ENDORSED.

Non Partisan Resolutions Passed Endorsing Cleveland and Pledging the Strength of the Government to His Support.

Washington, July 11.—Three of the annual appropriation bills were passed by the Senate to-day, practically without discussion and with little more consumption of time than that occupied by the clerk in reading them. They were the diplomatic and consular, the invalid pension and the military academy bills. The pension bill appropriated a round $150,000,000. If the Senate had not been in an exceptionally indolent or tolerant disposition, perhaps the result of the great strain to which it was subjected during the long and exhausting tariff struggle, it might have discussed such a bill for a couple of days. But the only discussion which it evoked was the delivery of two short speeches by Senators Cullom (Rep.) of Illinois and Gallinger (Rep.) of New Hampshire, criticising the Democratic administration of the pension office and a sharp reply to them by Senator Palmer (Dem.) of Illinois. Even the debate on Senator Peffer's (Pop.) of Kansas resolution declaratory of the Populistic ideas about the government control of railroads and kindred subjects and on Senator Daniels's (Dem.) of Virginia substitute for it, endorsing and commending the course of the President and the administration in dealing with the great railroad strike, was short and free from excitement. Mr. Daniels proposed to-day an addition to his substitute declaring the adhesion of the Senate to the principle of arbitration and its condemnation of the refusal to arbitrate given by one of the parties to the struggle (meaning the Pullman Palace Car company). This proposition met such warm opposition and resistance from the Republicans who wished action confined to an endorsement of the Executive, that Mr. Daniels withdrew it and even modified the resolution which he had offered on Tuesday, so that it simply endorses the prompt and vigorous measures adopted to repeal and repulse the interference of lawless men with the due process of the laws of the United States with the transportation of the mails, and with commerce; and declares that the action of the President and his administration has the full sympathy and support of the law-abiding masses of the people and will be supported by all the departments of the government and by the resources of the entire nation.

Mr. Daniels's resolution as modified was adopted without a division.

The Senate adjourned at 5:15.

House.

Acting under the operation of an order from the Committee on Rules, the House this afternoon, after two days' debate, passed the bill introduced by Mr. McRae (Dem.) of Arkansas to amend the act of Sept. 29, 1890, providing for the forfeiture of certain railroad land grants. The new measure increases the scope of the present law by including 54,000,000 acres of land within its operation. An effort was made by Mr. Hartman (Rep.) of Montana to except from the operation of the bill, lands sold by the railroad companies to bona fide settlers for value; but this was defeated—yeas 96, nays 112.

By unanimous consent, in the morning hour, bills were passed granting right of way to the St. Paul, Minneapolis and Manitoba Railroad company through the White Earth, Beech Lake, Chippewa and Fon Du Lac reservations in Minnesota; and granting an American register to the schooner barge Astoria.

Senate amendments were agreed to on the dividing the southern judicial districts of Mississippi into two divisions and providing for holding a term of court at Meridian.

FROM MANITOU.

What the People at the Famous Resort are Doing.

The Cliff hop occurs to-morrow night.

E. A. Burbank of Chicago, Ill., is at the Cliff.

C. M. Churchill of Denver, is at the Graham.

T. S. Christie and wife of Detroit, are at the Cliff.

A number of strange faces appeared on the street yesterday.

The Graham sent a large party to Crystal Park yesterday.

Chas. B. Green of Washington is a guest at the Sunny Side.

Twelve went from the Cliff to Crystal Park on burros yesterday.

A large party will arrive at the Cliff, from Chicago, this morning.

The Barker house people are planning a German for the near future.

M. Griffin, Miss Griffin and Mrs. S. M. Griffin of St. Louis, are at the Cliff.

Rot. Bethmun of the Wainwright Brewing company of St. Louis and three ladies are at the Barker.

Mrs. J. A. Mitchell, two daughters and Miss Lucile Matthews of Carthage, Mo., are at the Sunny Side.

The Norris will give the first musical of the season Saturday night at 8:15. It promises to be quite an event. The Norris invite all to come.

Mrs. M. Friedman and son of San Antonio, Tex., who were at the Barker a few weeks ago, have returned. They went home to avoid the strike.

Herson Bros., the photographers next to the Barker house, have received some of the handsomest opals ever exhibited in Manitou. Some of the ladies at the Barker could talk of nothing else yesterday afternoon.

The entertainment given by Blind Tom last night was enjoyed by a large crowd. The audience did not get used to Tom's peculiar ways until the concert was half over. His applauding himself is very amusing. The latter part of the programme was much better than the first.

The Antlers presented a very lively appearance last evening. The lecture by Mrs. Saxton drew many there and others attended the concert by the hotel orchestra. The orchestra is very good and a pleasanter place cannot be found than the cool piazzas of the hotel with the music playing in the parlors. The management is glad to have the citizens take advantage of the concerts and last night many did so.

The Denver Times Sun states that a Mrs. J. S. Best, who resides at 101 Boulder street, this city, is anxious to learn of the whereabouts of her husband, an old soldier, who went south in March last for the benefit of his health, and who has not been heard from since.

MAKING IT CLEAR.

Two statements made public on Tuesday will assist in making clear the issue now before the American people and freeing it from the prejudice and misstatement with which it has been surrounded. One of these is the speech made by Senator Davis of Minnesota in answer to Senator Peffer, and the other is the admirable charge of Judge Grosscup to the Federal grand jury in Chicago. As is natural enough the charge of the judge is the more technical, though it is a remarkably clear and logical statement of the principles which underlie the rights of labor organizations, and the limitations which must prevent them from overriding the larger and wider rights of the general public. Senator Davis on the other hand gave a more popular and more eloquent answer to the socialistic utterances of Senator Peffer, and touched upon a most vital principle when he declared that the only liberty worth having in this country is the equal liberty of all men alike—liberty in its philosophical and common-sense definition—the right of the individual to exercise the freest action up to and not beyond that point where he infringes on the exercise of the like right of other men.

It seems to us that these words of the Senator from Minnesota come very near touching the central point of the present controversy. We have become somewhat accustomed to the abstract proposition that in civilized society the individual in return for the protection and privileges which he obtains as a member of a social organization must yield a certain part of the individual liberty of action. Society engages to protect life and property, to punish wrong and administer justice in a way that the individual could not and in most cases does not desire to do. The necessary rules by which these functions of the social organization are exercised form a large part of our laws, and the fundamental principle upon which they are established and maintained is that the welfare of the people as a whole is superior to the interests of any individual. This principle has been generally recognized.

But the increasing complexity of our civilization and the tendency to union and organization which is so prominent a feature of modern life brings us to deal at the present time, not only with individuals but also with masses and classes of men, having similar interests, similar circumstances and often similar prejudices. But it is not less true under the changed conditions that the whole must be superior to any of its parts, and that no class of men can be allowed to establish their own interests independently of the wishes of other classes. Especially is it true that one of these organizations, or all of them together, must not be permitted to arrogate to itself for the establishment of its interests powers which even the general government does not dare to employ for the protection and advancement of the people as a whole.

That the American Railway union has attempted to exercise such powers in the recent strike is evident. The Federal constitution prohibits the passage of any law impairing the obligation of contract; but the American Railway union has passed a law declaring that the contract made between the railway companies and the Pullman company, which was legal and for the public benefit at the time it was made, shall now be set aside and nullified. It is considered cruel and uncivilized, even in cases of actual war to shut off the food supplies and to wantonly destroy the property of non-combatants, but the American Railway union has not hesitated to do this. By making the dispute between the Pullman company and its employees of more importance than the commercial property and personal interests of the people of the country the Railway union has violated both common justice and common sense. By violating the United States laws, by obstructing the mails and by disregarding the injunctions of courts, it has shown itself hostile to the general government; while by the attempted exercise of powers forbidden to the government by the constitution it claims superiority to the Federal authority and admits no limit to the power which it may use in the attempt of its selfish interests.

It is therefore clear why a man may be a sincere friend of organized labor and at the same time oppose the lawless and treasonable efforts of President Debs and his associates. As was well said by Senator Davis: "The railway employees of this country number five or six hundred thousand men, indispensable, useful, valuable citizens in ordinary times when not misled, but compared to the great mass of the American people, how few they are in number." President Debs and Grand Master Sovereign represent an in-

Royal Baking Powder ABSOLUTELY PURE

portant part of the people of the United States, but it is only a part. President Cleveland is the executive officer of the whole people, elected by the whole people to enforce the laws which the whole people have established. The whole must be greater than any part.

In spite of everything encouraging reports continue from the Cripple Creek mines. Work continues, new strikes are made, and companies are joining the list of dividend payers. What would it have been but for Governor Waite! But Waite will not always be Governor, and some day those who have faith and staying power are bound to be richly rewarded.

Not all the union men endorse Debs and Sovereign. President Gompers of the great Federation is yet to be heard from with a strong probability that he will not endorse the strike, and the chiefs of the Brotherhoods are outspoken in opposition to it.

The passage of the Utah admission bill by House and Senate probably settles the question of another new State. Those who have been arguing the matter will now have an opportunity to test their theories by events.

Japan, China and Russia seem to be getting up a three-cornered Eastern question of their own, the subject being which shall rule Corea. The Coreans are not to be consulted in the matter.

The Glen Park Chautauqua is now in session, and will undoubtedly receive the share of public attention which it merits.

It is not President Debs's unionism which will be on trial, but his lawlessness.

Where Credit is Due.

The organization of the Republican party of Colorado is to-day, two months before the opening of the campaign, as nearly perfect as is possible. And this condition of affairs is due in no slight degree to the energy and administrative ability of Hon. Irving Howbert. There is a gubernatorial possibility in that name.—Durango Southwest.

WASHINGTON TOPICS.

Congress Slightly Scared Since the Carnot Murder.

Washington, D. C., July 10.—(Special.) After the tariff bill, what? Such is the pressing question in the house, and it is all figured on this resolve, "We must get away the last week in July at the very farthest." There are three tolerably important measures from the labor committee, each of which is good for one or two days' debate if the committee on rules will allow it. Mr. Walker grows more anxious every day to have his financial comprehension bill, as the members call it, considered at this session, and Mr. Hatch has another measure or two to hold up agriculture by the tail. One bill has already been introduced in regard to the anarchists, and two more are in process of incubation. The general subject of immigration, as to which even those members with the most radical views had not yet thought out a bill, is merged in the special subject of anarchist immigration. Secretary Gresham has received from the French minister the names and descriptions of 217 anarchists expelled from France, many of whom are known to have come to this country, and the committee on immigration thinks some speedy action advisable. The superintendent of immigration proposes an amendment of the existing law to the effect that any immigrant convicted of any crime or even a misdemeanor which in the opinion of the court renders him an undesirable citizen within two years after his arrival shall be returned to his native land. It is already the law that undesirable immigrants of various kinds shall be returned at the expense of the shipper who brought them, and the committee is very emphatic in favor of strengthening this provision and adding clauses to make it more effective.

A Few Were Not Admitted.

In the fiscal year just ended 1,630 foreigners were refused entrance, of whom 8 were idiots, 8 insane, 481 paupers, 12 convicts, 513 contract laborers and 577 set down as generally undesirable. Another very pressing subject is the new deal in the affairs of the District of Columbia, and after six months' squabbling between the local factions several of the committee think the cheapest way, after all, would be to restore local government in some form. The senate has done almost nothing as yet with the appropriations bills or with the bills for the admission of new states. As to the bills for various public buildings, especially that for the government printing office, and Mr. Tucker's joint resolution for an amendment to the constitution providing for the election of senators by a direct vote of the people, they will necessarily go over at least so the best judges think.

"We cannot," says Mr. Pigott of Connecticut, "get away before the 1st of August, do the best we can. I estimate that there are an even dozen of important measures which must be considered, and we have in this house 60 men who can talk two days at a stretch on any one of them. They are not talking to us, but to their own district, preaching politics by long distance telephone, as it were. Our only salvation is for the rules committee to shut them off. Now, one good question deserves another, so tell me what you western men think of this A. P. A."

The A. P. A. Matter.

"I know too little about it to form an intelligent opinion, but several members tell me it has had quite an effect out west."

"Yes, and it begins to look as if it would have a little effect in the east, but surely all such things must be very temporary in America. My folks came from Ireland just in time to let me in for the presidency, and I am the only one of the family born in this country. I am also, I believe, the only man of my class and religion to have been nominated for congress in my vicinity, and I am proud of having received far more enthusiastic support in the country districts than in New Haven, where I was born, or in some of the other large places. The New England farmer is a very fair minded man, a very broad minded and liberal man indeed. The religious people in my district of all denominations are very liberal and do not admire mean ways, especially underhand and so creepy. The Irish in Connecticut have not attained that prominence they have in New York and out west, where many of them are millionaires and great industrial leaders. Our people are good middle class folks, such as clerks and workers in the mills, but there is [illegible]

don't believe New England will take any stock in the movement I speak of. But I have wandered from the subject. You may set it down as a certainty that we shall stay here till the last of July, that we shall pass a good tariff bill and that business will improve very rapidly from this on."

A Populist View.

The Populists are in a state of mind over the comments on the assassination of President Carnot, and Mr. Hudson in particular is on the points of his hoofs because he has been accused of making excuses for the anarchists. "I have," says he, "been reading the papers and noticing things since the time the slavery agitation got flagrant, and I have noticed all along that it is a favorite trick of the enemies of liberty to confuse all other people in one mass as reckless fellows. I can remember when if a man said that he was opposed to slavery or would not help catch fugitive slaves some other fellow was sure to start up with a 'What! Would you want your sister to marry a nigger? Whoosh!' The argument was, you see, that if you weren't on one extreme, why, you must be on the other, and they have kept that thing up ever since. Whenever a man advocates any kind of reform, and especially a reform to help the poor and prevent wealth from getting into the hands of the few, he is immediately denounced as a reckless demagogue who is arraying the poor against the rich. Doesn't it strike you as funny that so many Republicans, especially those in the east, are so very much down on agitation when their party had its origin in nothing else? As a matter of fact, what was ever accomplished in the world that didn't begin in agitation? Now, as to this Carnot business and everything of the sort, I am really on the other extreme from the apologist. I am opposed to glorifying anybody who breaks the law, especially such a man as John Brown of Harper's Ferry. I think the Republicans have made fools of themselves over him."

Writing a Telegram.

Telegraph operators have their trials as well as ticket agents and other officials. "Is this the place to send telegrams from?" demanded a woman breathlessly of the operator in an out of town railway station. "It is, ma'am," replied the operator as he handed her the pad of yellow blanks and pen and ink.

"Just like mine," said the woman, comparing the blanks with crumpled one she had in her hand.

"Now, let me see. What day in the month is it?"

"Twelfth, ma'am."

"All right. Now, let me see. You may come tomorrow if it is just exactly as why, there are 10 words already, and John told me I ought always to get a message into 10 words."

"You might leave out the unimportant words," suggested the operator.

"Why, it seems as if they were all just as necessary as they could be," said the woman in an aggrieved tone. But after repeated countings on her fingers and several seasons of meditation she at last reduced the message to exactly 10 words, although, as she said, it sounded real harsh and unfriendly to her.

She destroyed a considerable number of blanks during this process, but eyed the last one with evident satisfaction and approval.

"And now I'd like an envelope, if you please," she said pleasantly to the operator as she began to fold up the blank.

"What for?" inquired that long suffering person.

"What for!" echoed the woman. "Why, mine came in an envelope. I'll pay a cent extra if you're not willing to throw it in for the quarter."—Youth's Companion.

BAPTIST YOUNG PEOPLE'S

Excursion to Toronto and Return—One Fare

The Burlington Route has been designated as the official line from Colorado for the Baptist Young People's excursion to Toronto. The low rate of one standard fare will be made for the round trip from all Colorado points. The official train will leave Denver at 9 p. m. July 16th, and all those who desire to accompany the excursion party and wish to secure through sleeping car accommodations should send in their names at once to Frank R. Harrington, P. O. Box 1433 Denver, who has charge of the excursion.

This low rate, however, is open to everyone, and all those who wish to avail themselves of it can purchase tickets July 14th and 15th, good to return from Chicago August 7th. Parties purchasing tickets via the Burlington route secure the advantage of fast vestibuled trains leaving Denver daily at 9 p. m., affording better accommodations and quicker time than any other line. For full information call on J. M. Rillison, local ticket agent, or address G. W. Valley, general agent 1039 17th st., Denver.

—NO EXTRA CHARGE—

For the superior service on the great Rock Island travelling palaces. Lowest rates and the very best service including through sleepers to Chicago, Des Moines, Omaha, St. Louis, Kansas City, Ft. Worth and New Orleans.

Close connections at all of above points for all points in every direction. All meals in our own magnificent dining cars. Make all your arrangements for a through trip at our city ticket office, No. 13 Pike's Peak ave.

YOU MAY STRIKE IT RICH.

If you could pick up $21,000 in gold by one week's work, it would be worth going a few hundred miles to get, wouldn't it?

That's just what the Aztec mine (Colfax Co., New Mexico), produced in seven days, with total product to date of nearly a million dollars.

This rich mine is one of many in the newly discovered Moreno Valley and Ute Creek placer and quartz gold districts. Take Santa Fe route to Springer, N. M., thence stage to the camp. Short winters, healthful climate and rich prospects. This may be the chance of a lifetime. Ask local agent A. T. & S. F. R. R. for illustrated pamphlet. It tells the truth about this new country.

Commodious and easy four-horse stages leave Springer every week day at 7 a. m., arriving at Cimarron (43 miles) 11:30 a. m., and Elizabethtown (30 miles) by 5:30 p. m. Passengers for Baldy connect at Ute Creek with separate coach to that camp, arriving 5 p. m. Those destined to Amizette can go from Elizabethtown by horseback or on a tri-weekly stage. The stage fare Springer to Cimarron, $4.50; to Baldy, $6, and to Elizabethtown, $7; with 10 per cent. discount for round trip. Twenty-five pounds free baggage allowed on stage.

GEO. T. NICHOLSON, Gen. Pass. Agt.

THE GREAT ROCK ISLAND ROUTE

Will sell excursion tickets at very low rates to Asbury Park, Cleveland and Toronto in July. For full particulars, privileges, etc., call at City Ticket office, 13 Pike's Peak ave. W. W. Wood, Ticket and Passenger agent.

California rates at Rio Grande office, $30, $43, and $55; round trip $60 and $70. City ticket office, No. 16 North Tejon street.

DENVER AND RETURN.

The Santa Fe Route have best train for those desiring to spend the day in Denver. Leave at 8:35 a. m., arrive in Denver 11 a. m.; leave Denver 7 p. m., reach Colorado Springs 9:30 p. m.

CHANGE OF TIME.

On July 1st the U. P., D. & G. will issue a new time card; and after that date their solid trains will arrive and depart at convenient hours in the day time. No change of cars.

SANTA FE ROUTE—REDUCED RATES TO THE EAST.

Meeting Christian Endeavor Societies, Cleveland, O., July 11 to 15th. Tickets will be sold July 8th and 9th. $38.40 round trip.

Meeting Baptist Young People's Union, Toronto, Ont., July 18-22. Tickets will be sold July 16th and 17th. $43 round trip.

Full information as to return limits, etc., at city ticket office, 13 N. Tejon st. (Opera House block), or at depot office.

Sixty hours to New York City via Rock Island.

WHY TAKE THE WABASH

For St. Louis?
Because it is the shortest line, the best equipped line runs free chair cars, buffet Pullmans, and gives you ample time in Kansas City for supper.

For Toledo or Detroit?
Because it is the shortest line, avoids transfer across the city in case you are going further east, and makes close connections with all trunk lines.

For New York or Boston?
Because it has solid through service from both Chicago and St. Louis via Niagara Falls; gives forty minutes stop at the falls at seasonable time in the morning.

For all other Eastern Points?
Because its service is uniformly good and you can make no mistake in asking for tickets via the Wabash.

C. M. HAMPSON, Commercial Agent, 1221 17th St., Denver.

Missouri Pacific railway runs the finest trains East. Free reclining chair cars and Pullman buffet sleeping coaches of the latest model.

CHANGE OF TIME.

On and after July 1st, the U. P. D. & G. trains will leave as follows: for Pueblo, Trinidad and all Texas points at 1:20 p. m.; for Denver, making connections for the east and west, at 2:20 p. m. The trains will continue to run solid to and from Colorado Springs, with no change of any class to Ft. Worth and through Pullman car to Houston and New Orleans. Ticket office 10½ Pike's Peak avenue.

COW MOUNTAIN BONANZA.

Find in a New Portion of the Cripple Creek District.

On the outskirts of what has hitherto been considered the profitable mineral area of the great gold camp of this county considerable prospecting has been on foot for some time, says The ... This work has attracted but little attention and many of the old timers have been inclined to throw cold water on the efforts to extend the boundaries of the camp. In one instance at least important developments have been made. This is to the east and north reaching beyond Beaver creek.

Cow mountain is east of Beaver park. In this locality the trachyte and granite formations come together and prospecting has been carried on at their line of contact. The Record correspondent was shown a sack of ore that was just taken from this mountain. The different pieces show free gold in quantity, some being genuine jewelry specimens. It is said that the name of the property and its exact location cannot be made known. The important point, and one of great interest in the development of this district, is that Cow mountain has scored ... one find of pay ore, and that in some little quantity. It is said there is a well marked vein which gives evidence of proving a veritable bonanza.

Exchange Building Sold.

Denver, July 11—The Mining Exchange was sold yesterday under a second mortgage for $7,500. This second mortgage was for $100,000, and was bid in by the Mining Exchange Building Co., of which ... Evans is president and F. C. ... is secretary. The buying in of the second mortgage will in no way affect the legal status and ownership of the building.

The Mining Exchange building is one of the finest in the city, built on four lots at the corner of Fifteenth and Arapahoe streets. These four lots cost $100,000 and the building $300,000, making a total of $400,000.

There is a first mortgage of $250,000, the second mortgage of $100,000, under which it was sold to-day, and a third mortgage of $50,000. The building is still a winning proposition and a very valuable property. The offices are well filled and the revenue from the rent have paid the expenses and the interest on the first mortgage.

chased 67,000 shares of the Broken Hill Gold Mining company of Cripple Creek. Mr. Arkell arrived at this decision after spending several days investigating the property's workings.

The Gold King on Gold hill is producing more and better ore than ever before in the property's history. The pay streak in the vein now being worked is eight inches in width and runs over $50 to the ton.

The Anna Lee continues to demonstrate its right to the title of "white" in the extent and constant value of its great ore body. With the force now employed it is shipping regularly two cars per day, the average value of the ore being $50 per ton.

A rumor is current of the coming consolidation of all the properties on Beacon hill and the report has it that one of the first enterprises of the combine will be the running of a tunnel into the mountain to cut the different ore veins at a depth of 500 feet.—(Journal.

Bennet & Myers and W. T. Eaton have started work on their property west and north of the Palace hotel There was a great deal of excitement over the rich assays on ore out of the property two years ago, and it is wondered at that is should lay idle so long.—(Journal.

"Doc" Clemmons, superintendent of the Kismet, returned to Cripple Creek yesterday and states that work will be resumed on that property in a short time and that arrangements are now being made for equipping it with a steam hoisting plant.

Frankle and Duvall have opened a new vein on the Page, a claim located on the ridge south of the Independence, which at a depth of fourteen feet averages a value of $10.40 gold to the ton from wall to wall. The boys say there will be three or four big shippers in that vicinity inside of thirty days.

The bond of twelve thousand dollars on the Little Mary claim of the Creede and Cripple Creek company is not due until September first. Insiders claim that it will be taken up at that time. The lessees who are also the bondholders are working the property, and are said to be making a good showing

The resurrection of the Strong shaft house, blown up with dynamite and destroyed by fire during the late strike trouble, has been commenced. The resumption of operations on this property will take place as soon as the shaft timbering can be repaired and the mine equipped with new machinery.

At their meeting Tuesday night the Mt. Rosa company directors declared a half cent dividend, payable the 25th inst. It is hardly possible that this will be followed by an August dividend, but it is said that another will be declared in September and if all goes well a regular monthly dividend will follow.

In the Lemhi district the floods of May and June were exceptional. At the mines of that section the work of piping was seriously delayed on this account. This was particularly true at the Lemhi where the ditch and flumes were washed out in a number of places. All the needed repairs have been made and the active working season is under way. The water supply is larger than for any year since the Lemhi company has been in existence and it is probable that piping will be continued for fully a month longer than in 1893. As the gravel bank is well opened a handsome clean-up is to be predicted Consulting Engineer Aug. J Bowie is on the ground and he gives excellent accounts of the beginning of the season's hydraulicing. The Lemhi owns 4650 acres of rich placer ground, all of which is patented.—(Record.

A WORD WITH YOU.

Two blades of grass where there was one before. That's what our garden hose makes; and that's what Jerry Simpson says is "honest productive effort." Think of it! Velvety lawns, fruitful gardens; refreshened, rarefied atmosphere. This is the picture our garden hose calls up, and makes you feel a fatherly interest in all creation. After the evening meal he gives to the grass and flowers the drink that the skies have denied, supplementing Dame Nature's work, correcting her shortcomings. We can find poetry in garden hose. You can not find profit in cheap garden hose. We sell the most durable garden hose in the world. Don't forget that we are leaders in hose novelties.

As will be seen by an advertisement in another column, bids are being asked for the stone work on the Coliseum building. Ground will be broken on Monday next, and the building will be pushed to completion as fast as possible, or as the subscriptions to the stock will permit.

Mr. Minnehan, commercial agent of the Rock Island, yesterday received a message to the effect that the strike blockade on the road has been raised and saying that freight may now be received, including live stock, for Chicago and the Union stock yards without the notation "owner's delay account of labor troubles."

Rhinehart, one of the imprisoned strikers, was yesterday released on bail, having obtained bondsmen satisfactory to the sheriff. It was announced here yesterday that the Miners' Union at Cripple Creek had decided to bounce Tarsney and Montgomery as attorneys for the men. They have secured Lafe Pence and an Aspen lawyer whose name could not be learned to replace them. The reason for this was not stated.

Coroner Marlow returned yesterday from Cripple Creek where he investigated the death of Eugene Daugherty who was killed by falling back into a shaft after putting off a shot. A rumor got to the coroner that the man had been "rednecked," but investigation showed the case to be purely accidental. The remains of Daugherty were brought to this city and buried yesterday afternoon from Hallet & Baker's undertaking rooms under Masonic auspices.

Mr. John E. Ray, superintendent of the Colorado School for the Deaf and Blind, has tendered his resignation to the board of trustees and the resignation has been accepted. Mr. Ray has recently been elected superintendent of the Kentucky school by a unanimous vote of the board. He is now at Chautauqua, N. Y., in attendance upon the meeting of the National Association of Teachers of the Deaf and Blind, which it will be remembered met in this city three years ago.

The Colorado Springs Wheel Club are again preparing the track for Saturday and announce that they have some ten to twelve additional entries, including crack riders. Mr. Wright, the holder of the one fourth mile record, will endeavor to reduce his own time. Mr. Block of Denver says he can reduce his one-mile championship time several seconds. There are other well known and speedy men who will compete, so that Saturday's races bid fair to be well worth seeing. Considering the heavy loss the club suffered on the 4th it is hoped the citizens will turn out and help the club, as there will be a very hotly contested set of events. There is every chance to make this the cycling race center for Colorado if our citizens who admire pure amateur racing will support the club.

Mr. Nye expects to open the Casino Monday night. On account of the delays in railroading it is impossible for the band to get here before that date. Preparations are going forward to have the Casino open in good shape. A great many beautiful flowers are being planted this year under the direction of Wm. Clark and the grounds will be more beautiful than ever. Mr. and Mrs. James May are to have charge of the Casino cafe. They have an excellent reputation as caterers and they deserve it will be more popular than ever. Mr. Nye has already begun to make arrangements for special attractions during the season. It has been suggested that a company be secured to give an open air performance of "As You Like It." The director of the new band was the original leader of the original Hungarian orchestra, not the Rosner Stark Hungarians, but the band which made the great hit.

Governor Waite did not interfere with the arrest of the two prisoners at Victor Tuesday as was announced. The rumor was current on the streets of Cripple Creek late that night, and the best information that could be obtained was to the effect that it was true. Under Sheriff Brisbin said yesterday that they took the men on warrants and immediately turned them over to Captain Gardner, who was in command. This was done to insure against any conflict with the Governor. They had no word from the Governor of any kind and were not bothering about any, one way or another. The men arrested were the men whose names were given yesterday. Captain Gardner is to bring them down here to-day.

Now that the Casino is an assured success, the next thing in order is the sunflower carnival. Steps are being taken to organize a sunflower club and make the sunflower carnival an annual affair. Considering the success of the parade last year and the short time given to make preparations, there is no doubt that with a permanent organization, and more time, Colorado Springs can have a flower parade that has never been equalled. It is proposed to have the carnival this year about the middle of August when the sunflowers should be in their prime. A call will soon be made upon our citizens to join the sunflower club, which is bound to become one of the institutions of Colorado Springs. If we can have our Casino opened, the sunflower parade, our town full of guests, in addition to the other inducements in the way of climate, good roads, etc, this should be evidence enough to our Eastern friends that under all circumstances Colorado Springs is the best place in the United States in which to live during all seasons of the year.

Hallen & Hart.

The popular farce comedians, Hallen and Hart, will appear at the Opera House, Friday night in their new play, "The Idea." It is said to be of a finer grain and purpose than their familiar skit "Later On." There is promised the same attractive songs and music, with more abundant and natural humor, and a consistent though airy story upon which to hang it all. The story of the piece pivots on the helpless maneuverings of a well intentioned old fellow who is bursting with reform notions. The immoral drift of the world at large and his own little world in particular keeps him in a ferment of unrest which leads to a great many humorous complications. He is the agitative head of several law and order leagues, and reform societies, and is humorously bustling most of the time to elevate and purify the local current of social affairs. Mr. Hart appears in the role of an eccentric Pennsylvanian, who has more wit than wisdom, and is the humorous victim of every entangling circumstance. Mr. Hallen's part is that of an ultra-fashionable sprig, whose years of discretion would not make much of a sum in arithmetic, and whose most serious thoughts of life are concentrated upon clothes and the gentler sex.

Going Out of Business.

The entire stock of the Famous Shoe House is to be closed out. Having fully decided to discontinue the shoe business in this city I now offer my entire stock of shoes and store fixtures at eastern wholesale cost and less in order to close out as soon as possible. I shall offer great inducements to purchasers. In order to make this sale genuine I will in no case allow one penny more added to the price of a single item than actual eastern cost. It will pay you to call and look through whether you buy or not. You can do so without trouble to yourself or salesmen, as I have every kind of shoe in my stock so arranged with former and present cost price marked on each in plain figures, so that you can see for yourself. If you want shoes don't get left, but come at once and get full benefit of this sale while every department is complete and sizes good.

Store open Saturdays until 10 p. m.

Prosperous Colorado Springs.

The times are out of joint in almost every city and state in the Union; business is dull, factories are closed, building has ceased, and men are idle. This condition of things is slightly felt here, but only in a sympathetic way, and it should not be felt here at all. While panic conditions prevail elsewhere, *Colorado Springs is a prosperous town.* New dwellings are being erected in all parts of the town. One new business block has already been built this year, and another one is under way; a splendid Coliseum is to be built at once, and when it is done it will make Colorado Springs a convention city, and draw money from all parts of the United States; the Casino bids fair to be opened for the season; gas has been discovered at Colorado City, and Cripple Creek daily adds wealth to the town. The town is full of people, and houses to rent are scarcer than they have been in five years, despite the hundreds of new houses that have been built. We advocate real estate investments in this town. That advice on our part is an old story, and we have paid a good many hundred dollars in advertising it; but the advice is better to day than it ever was. Since we have been in business here a great many Colorado Springs men have invested their money in Denver, Salt Lake, Ogden, Galveston, Pueblo, Helena and other places. We venture to say that these same men will admit that they would be fifty per cent. better off if they had invested in real estate in Colorado Springs.

But if this town were ten times more prosperous than it is you could not make any money here unless you tried. There is no money made by wearing a long face, standing on street corners, and croaking.

We will trade real estate *for mining stocks*; we will trade the real estate at its value, and want the stock at its value. We will trade mining stocks for real estate. We have money to loan on real estate; we want to loan only on good property, and to men who will meet their obligations. We offer all kinds of real estate for sale on easy monthly, quarterly or annual payments.

Reed Brothers,
28 South Tejon St. Telephone 207.
